advantage

Core quality

Extraordinary
features

WHY SHOULD WE CHOOSE CHINA MAGNETIC FIELD, BECAUSE WE ARE A BIG FACTORY WITH QUALITY GUARANTEED.

6 big leap advantage

Every place is unique

1 Control system upgrade

The control system was upgraded from the original PLC to MCU, the integration is greatly improved, hit The print effect is more beautiful.

2 Four-sided lifting motor

Up and down lift motor: upgrade to stepper motor, Compared with the original front and rear stepper motor Lifting more accurately and able to Significantly reduce printing errors. At the same time, the manual operation process is greatly reduced, and the use is more convenient.

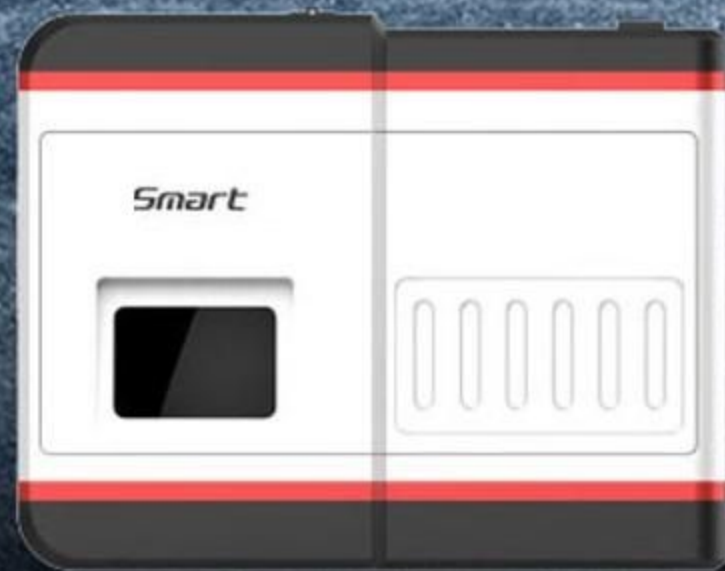

3 Highly liberating manpower

The original boot physical button is integrated into the LCD The screen is more beautiful in appearance and more user-friendly in design. The operation is more convenient.

4 New generation LCD screen

LCD screen upgrade: a new generation of LCD screen, in the original display On the basis of the display screen, the sensitivity of the touch total control screen is improved. Degree, avoiding the old touch screen response is not working, the operation is complicated Trivial and cumbersome questions.

5 Automatic cleaning nozzle + Silent printing

The nozzle will be cleaned regularly, effectively avoiding nozzle clogging. Increased the life of the nozzle. Motor motor and double cold (air cooled + water cooled) system with The UV lamp is turned on and off at the same time, perfect for noise reduction. Really achieve no sound work.

6 Stable operation + perfect appearance

Built-in high-precision ribs: large print vibration The degree is reduced and the machine is more durable. There is no screw in the whole body, and the appearance is streamlined. Highlight the high value of the face.
