

Machine Introduction

Photo	Specification	
   	Model number	A3 DTF printer (4th Generation DTF printer)
	16 systems	1. heating system; 2. cooling system; 3. white circulation system; 4. constant pressure system; 5. double control board system; 6. pet film control system; 7. Vacuum suction platform; 8. Regular automatic cleaning system 9. White ink mixing system; 10. One-click cleaning system; 11. Automatic recovery of ink volume system; 12. Upgrade the motor. Prevent the printing speed from slowing down. 13. Personalized timing system; 14. Power-on intelligent white ink mixing and white ink circulation system. 15. The nozzle intelligent flash spray protection system can extend the life of the printhead by 6 months. 16. Motherboard protect system
	Printing Technology	Smart inkjet printing technology, print white and color at the same time
	Ink color(UV ink)	cmykww
	Printer head	Epson 1390 printheads
	Printing speed	30*45cm/4 minute
	Max Print Resolution	5760*1440dpi
	Max Printing size	310*450 mm
	Print Object	t-shirt, sweater, hat, jeans. Pure cotton, polyester fiber, nylon, cotton and linen, mixed textile materials.
	Printer size	L750*W320*H280mm
	Package size	L800*W400*H430mm
	Operating Temperature	0 ° to 35 ° (50 ° to 95 ° F) Wet 20~80%
	Interface	USB3.0 Gigabit Ethernet interface
	cooling system	Motor wind cooling system
	Printing software	Acrorip 9.0.3
	Cleaning method	Automatic clean or using computer automatic cleaning function "nozzle cleaning"
Weight(N/G)	26KG/34KG	
Power supply	VAC220/110 ± 10 , 50HZ~60HZ, Power ≤ 35W	
operating systems	Windows 7/8/10	
Warranty	38 months (except ciss, cleaning unit, printer head and damage by human.)	
Print Materials	pet film	

Consumables

Textile ink	1L ink can print about 100 square metres
Epson 1390 printhead	540 nozzles(6color*90), 1.5pl each nozzle
CISS	Continue ink supply system
Clean unit	Cleaning printer head
Rip software	Control ink output
